SN10 −− GO BP enrichment
proteasomal protein catabolic process
regulation of protein catabolic process
regulation of protein stability
response to nutrient levels
regulation of protein modification by small protein conjugation or removal
intrinsic apoptotic signaling pathway
regulation of apoptotic signaling pathway
negative regulation of catabolic process
macroautophagy
cellular response to nutrient levels
protein polyubiquitination
transcription preinitiation complex assembly
mitophagy
regulation of miRNA metabolic process
miRNA metabolic process
