SN15 −− GO BP enrichment
response to nutrient levels
post−transcriptional regulation of gene expression
negative regulation of catabolic process
macroautophagy
nucleocytoplasmic transport
regulation of protein stability
canonical NF−kappaB signal transduction
regulation of protein modification by small protein conjugation or removal
mitophagy
miRNA metabolic process
nuclear−transcribed mRNA catabolic process
cellular response to nitrogen starvation
autophagosome maturation
mRNA export from nucleus
regulation of miRNA transcription
