SN20 −− GO BP enrichment
positive regulation of protein modification process
cellular response to hormone stimulus
regulation of transferase activity
regulation of protein kinase activity
regulation of kinase activity
response to peptide hormone
cell surface receptor protein serine/threonine kinase signaling pathway
protein localization to nucleus
cellular response to peptide hormone stimulus
regulation of protein catabolic process
transforming growth factor beta receptor superfamily signaling pathway
extrinsic apoptotic signaling pathway
response to transforming growth factor beta
cellular response to transforming growth factor beta stimulus
ERBB signaling pathway
