SN21 −− GO BP enrichment
regulation of protein stability
protein maturation
regulation of DNA−binding transcription factor activity
response to nutrient levels
regulation of response to biotic stimulus
protein localization to nucleus
regulation of innate immune response
intrinsic apoptotic signaling pathway
canonical NF−kappaB signal transduction
negative regulation of catabolic process
cellular response to nutrient levels
regulation of protein modification by small protein conjugation or removal
regulation of binding
regulation of protein localization to nucleus
chaperone−mediated protein folding
