SN35 −− GO BP enrichment
cellular response to starvation
response to starvation
regulation of response to biotic stimulus
regulation of leukocyte activation
regulation of protein ubiquitination
regulation of innate immune response
positive regulation of defense response
negative regulation of immune system process
autophagosome assembly
regulation of proteolysis involved in protein catabolic process
vacuole organization
response to interferon−beta
negative regulation of TORC1 signaling
autophagosome maturation
interleukin−17−mediated signaling pathway
