SN45 −− GO BP enrichment
response to nutrient levels
post−transcriptional regulation of gene expression
regulation of response to biotic stimulus
regulation of innate immune response
ribonucleoprotein complex biogenesis
negative regulation of catabolic process
macroautophagy
canonical NF−kappaB signal transduction
cell surface receptor protein serine/threonine kinase signaling pathway
transforming growth factor beta receptor superfamily signaling pathway
negative regulation of proteolysis
mitophagy
negative regulation of protein catabolic process
cellular response to nitrogen starvation
miRNA processing
