SN52 −− GO BP enrichment
post−transcriptional regulation of gene expression
intrinsic apoptotic signaling pathway
regulation of apoptotic signaling pathway
response to nutrient levels
cell surface receptor protein serine/threonine kinase signaling pathway
regulation of innate immune response
canonical NF−kappaB signal transduction
negative regulation of catabolic process
macroautophagy
transforming growth factor beta receptor superfamily signaling pathway
cellular response to transforming growth factor beta stimulus
response to transforming growth factor beta
regulation of protein ubiquitination
mitophagy
cellular response to nitrogen starvation
