SN59 −− GO BP enrichment
positive regulation of protein modification process
positive regulation of phosphate metabolic process
proteasome−mediated ubiquitin−dependent protein catabolic process
regulation of cellular catabolic process
positive regulation of cellular component biogenesis
regulation of transferase activity
positive regulation of MAPK cascade
negative regulation of catabolic process
regulation of apoptotic signaling pathway
intrinsic apoptotic signaling pathway
macroautophagy
positive regulation of transferase activity
mitophagy
regulation of miRNA metabolic process
cellular response to nitrogen starvation
