SN61 −− GO BP enrichment
response to nutrient levels
response to transforming growth factor beta
regulation of protein modification by small protein conjugation or removal
transforming growth factor beta receptor superfamily signaling pathway
regulation of transforming growth factor beta receptor signaling pathway
regulation of intrinsic apoptotic signaling pathway
protein−DNA complex organization
connective tissue development
RNA polymerase II preinitiation complex assembly
regulation of miRNA metabolic process
miRNA metabolic process
response to ionizing radiation
cellular response to decreased oxygen levels
mitophagy
cellular response to nitrogen starvation
