SN62 −− GO BP enrichment
T cell activation
leukocyte differentiation
positive regulation of cell adhesion
regulation of cell activation
negative regulation of immune system process
ERK1 and ERK2 cascade
morphogenesis of an epithelium
leukocyte cell−cell adhesion
regulation of ERK1 and ERK2 cascade
response to insulin
cellular response to peptide hormone stimulus
epidermal growth factor receptor signaling pathway
Fc−gamma receptor signaling pathway
negative regulation of myeloid leukocyte differentiation
negative regulation of inflammatory response to antigenic stimulus
