SN63 −− GO BP enrichment
regulation of apoptotic signaling pathway
positive regulation of programmed cell death
regulation of response to biotic stimulus
activation of immune response
positive regulation of response to external stimulus
regulation of innate immune response
regulation of protein modification by small protein conjugation or removal
regulation of cellular catabolic process
response to nutrient levels
canonical NF−kappaB signal transduction
regulation of protein catabolic process
positive regulation of defense response
macroautophagy
positive regulation of DNA−binding transcription factor activity
cellular response to nutrient levels
