SN64 −− GO BP enrichment
chromosome organization
regulation of DNA metabolic process
regulation of transferase activity
regulation of kinase activity
regulation of mitotic cell cycle
DNA replication
regulation of protein kinase activity
response to nutrient levels
regulation of mitotic cell cycle phase transition
G1/S transition of mitotic cell cycle
regulation of DNA replication
regulation of ubiquitin−dependent protein catabolic process
regulation of fibroblast proliferation
double−strand break repair via break−induced replication
cellular response to nitrogen starvation
