SN69 −− GO BP enrichment
regulation of cellular response to stress
proteasome−mediated ubiquitin−dependent protein catabolic process
telomere organization
positive regulation of chromosome organization
regulation of DNA replication
DNA replication
positive regulation of telomere maintenance in response to DNA damage
regulation of DNA strand elongation
regulation of embryonic development
response to ionizing radiation
cellular response to radiation
response to UV
intrinsic apoptotic signaling pathway by p53 class mediator
negative regulation of autophagy
regulation of intrinsic apoptotic signaling pathway by p53 class mediator
