SN75 −− GO BP enrichment
proteasome−mediated ubiquitin−dependent protein catabolic process
macroautophagy
positive regulation of catabolic process
regulation of canonical NF−kappaB signal transduction
intrinsic apoptotic signaling pathway
negative regulation of catabolic process
regulation of autophagy
regulation of protein modification by small protein conjugation or removal
regulation of protein catabolic process
regulation of transcription elongation by RNA polymerase II
mitophagy
protein−DNA complex organization
cellular response to nitrogen starvation
response to interleukin−17
cellular response to interleukin−17
