SN84 −− GO BP enrichment
macroautophagy
regulation of protein modification by small protein conjugation or removal
viral process
regulation of protein catabolic process
regulation of proteolysis involved in protein catabolic process
autophagosome maturation
lysosomal membrane organization
midbody abscission
regulation of mitotic spindle assembly
late endosome to lysosome transport
nuclear membrane reassembly
vesicle fusion with vacuole
multivesicular body−lysosome fusion
vacuole fusion
viral budding from plasma membrane
