SN86 −− GO BP enrichment
proteasome−mediated ubiquitin−dependent protein catabolic process
regulation of protein catabolic process
Wnt signaling pathway
positive regulation of catabolic process
regulation of transferase activity
regulation of cellular response to stress
regulation of kinase activity
cell growth
regulation of protein kinase activity
negative regulation of catabolic process
protein localization to nucleus
regulation of protein ubiquitination
regulation of receptor−mediated endocytosis
cellular response to nitrogen starvation
dorsal/ventral axis specification
